

ARGUMENTS WILL BE PRESENTED THAT THE GOVERNOR IS IMMUNE

Small's Attorneys Will Appear in Court Today for That Purpose—Governor Receives the News That the Grand Stand is Destroyed at Kankakee—Curtis Gives Bond

(By The Associated Press)
SPRINGFIELD, Ill., July 21.—Counsel for Governor Small, appearing as "friends of the court" will present arguments to Judge E. S. Smith tomorrow that the governor, as the state's chief executive need not submit to arrest for embezzlement or conspiracy to defraud the state, as charged in indictments returned yesterday against him, Lieutenant Governor Fred E. Sterling and Vernon S. Curtis, Grant Park, Ill., banker.

State's Attorney Mortimer, it is reported, will be on hand to contend that the governor's position does not make him immune from arrest and that warrants issued against Small should be served.

Lieutenant Governor Sterling was expected to appear in court tomorrow morning to give bond, unless his attorneys attempt to show that he also may, on constitutional rights, resist arrest.

Mr. Curtis' bonds were arranged today, Judge Smith reducing them upon appeal of Attorney Paul B. Fischer of Chicago and Judge C. H. Jenkins, director of the state department of public welfare.

AIRPLANES SINK CAPITAL SHIP IN TRIALS THURSDAY

**One Two Thousand
Pound Bomb Puts
Vessel to Bottom**

(By The Associated Press)
On Board the Destroyer Leary, En Route to Norfolk, Va., July 21.—The ability of the airplane to destroy the capital ship was demonstrated today off the Virginia capes.

Army bombers, launching projectiles weighing one ton sank the former German battleship Ostfriesland, a 23,000-ton heavily armored ship in exactly twenty-five minutes after they opened their attack at 12:15 p. m., from an altitude of approximately 7,000 feet. Two bombs which landed overboard within a few yards of the port quarter gave the ship her death blows.

Seven of the one-ton missiles were dropped by as many army planes which came from Langley field, Va., 80 miles away, but immediately after the two had exploded near the port quarter the Ostfriesland began to settle by the stern. Those bombs were launched by separate planes within a minute of each other, the first at 12:26 p. m., and within five minutes the ships quarter deck was slightly awash and she began to list to port.

As the water, rushing thru rents torn in the hull by the one-ton bombs, flooded compartments after compartment, the big hulk went over gradually until she had turned bottom side up. She was then badly down by the stern and as she started the final plunge the bow rose high out of the sea to disappear slowly. Thus she came to a once great ship which launched five bombs of eleven hundred pounds each, scored three hits. These apparently failed to damage the ship in any vital part and while the official observers went over to examine the hull, the army planes carrying

HOUSE PASSED THE FORDNEY TARIFF MEASURE

**Estimated That it Will
Raise Five Hundred
Millions**

(By The Associated Press)
WASHINGTON, July 21.—The Republican protective tariff bill, estimated by Chairman Fordney to raise around five hundred million dollars in revenue annually, was passed by the house by a vote of 289 to 127.

The bill, which a Democratic motion for elimination of its American valuation provision was defeated.

Seven Republicans voted against the measure while the same number of Democrats supported it. Oil, hides, cotton and asphalt stood up against a determined fight to tax them and remained on the free list. The Longworth five embargo, first of the five contested schedules to go before the house proper for a separate vote and backed by most of the Republican members of the ways and means committee was thrown out 295 to 197.

Forming and holding a flying wedge, and aided by Republicans not satisfied with all the bill's provisions the Democratic majority made the most of its chances and won on each. The ways and means committee lost out on three of the five amendments laid before the house.

No Chance to Impose Duty.

There was not much chance of imposing a duty on hides and cotton after the house, in committee of the whole had defeated amendments carrying compensations on their manufactured products. When the oil amendment was reached there was such a shout of noes that a roll call was not demanded. A moment later Chairman Fordney, trying to make himself heard above the din which prevailed during three hours of voting announced that sentiment in the committee of the whole against taxing asphalt had been so overwhelming that it wasn't worth while to go thru the form of calling the roll.

More than 200 committee amendments, rushed thru during the last few days were put up to be voted on in a block. Some merely corrected spelling in the bill some shuffled commas and some changed the rates, but the Democrats, still holding their forces in line compelled a record vote.

Just before the time came to pass the bill, Representative Garner of Texas, ranking Democrat on the ways and means committee, stepped to the front with the expected motion to send the bill back to its framers with instructions to strike out the American valuation and reciprocal provisions. This was where the Republicans and Democrats divided squarely on the whole tariff issue, although they had split widely on some of the earlier votes.

PROMINENT FARMER WILL BUILD HOME

(By The Associated Press)
DECATUR, Ill., July 21.—Carter R. Scroggin, prominent farmer and stockman who died Wednesday at his home near Harrisburg, Ill., left the entire estate estimated to be worth approximately two hundred thousand dollars for the founding of a home for orphan boys.

The will, written several years ago, provides that the estate shall be administered by three trustees, the income going to Mr. Scroggin's widow until her death when the home is to be established on the Scroggin farm. The farm includes 1,200 acres, located 121 miles from the city of Decatur.

The value of the estate will be doubled in the vent of a favorable verdict in a suit now pending against the City of Decatur in which Mr. Scroggin asked for two hundred and fifty thousand dollars damages for injuries to his thoroughbred stock said to have been caused by pollution of the Sangamon river by the city's sewage.

Davenport sought the aid of the police in solving the matter.

There was a state law specifying that the flag be floated over state institutions. The flag did not appear at the university, and politicians took the opportunity to prefer charges against the governor, ex-officio member of the board of trustees of the university. The indictment was quashed before any other action was taken in the case.

GENERAL STRIKE IS LABOR'S MOST EFFECTIVE WEAPON

**Resolution Declaring This
Presented in San Francisco**

(By The Associated Press)
SAN FRANCISCO, July 21.—A resolution committing the organization to prepare for a general strike of all industries as "labor's most effective weapon" was adopted today by a council of 400 building trades workers which was formed to bring about peace in the building industry.

The resolution is to be voted on later. The resolution was presented after a committee reported that a conference with the building exchange had failed to reach any understanding that would bridge the differences that have tied building up in San Francisco since May 1. J. B. Dewar, chairman of the committee, reported that the chamber of commerce and not the building exchange was dominating the building situation and the chamber had made arrangements for an "industrial tribunal" which would fix wages, hours and working conditions. The committee was instructed to meet with the industrial relations committee of the chamber to see if an understanding could not be effected. In the event of the adoption of the general strike resolution a number of the building trades and other unions will be asked to endorse the resolution, executives of the council announced.

BELIEVE JAPANESE WILL CONSENT TO BROAD DISCUSSION

**Officials Think Far
East Problems Will
be Considered**

(By The Associated Press)
WASHINGTON, July 21.—Renewed confidence that Japan will consent to a broad discussion of far eastern problems as part of the disarmament conference was evident in official circles here tonight after another informal exchange of views between the Japanese and American government.

During the day the Japanese Ambassador Shidehara called on Secretary Hughes at the state department and they are understood to have discussed at length the situation resulting from Japan's reluctance to have the far eastern questions subjected to debate in the disarmament negotiations.

Those in charge of the preliminary negotiations here have heard with much interest the suggestion that some of the troubles of the conference might be obviated if such questions as the disposition of the Pacific island of Yap and the control of Shantung Peninsula were settled before the delegates assembled.

Altho official comment is lacking, it is manifest that such a development would be highly pleasing to American officials and that some steps may be taken to speed these questions toward solution.

RUSSIA PROTESTS FAILURE TO INVITE HER TO CONFERENCE

**Wants Invitation to Peace
Conference at Washington**

(By The Associated Press)
STOCKHOLM, July 21.—Kerzetzoff, chief of the delegation of Soviet Russia to Sweden today handed to Sheldon L. Crosby, the American charge d'affaires, a long note protesting against the failure to invite Russia to the Pacific conference in Washington.

The note expresses astonishment at the omission, considering it says that Russia is a sovereign power and that both the Russian republic and the far eastern republic possess territories along the Pacific. It protests against the suggestion that other powers should look after Russia's interests at the conference and declares that the Russian government cannot, under any circumstances permit other powers to argue for her.

Complaint is made in the notes that the attitude of the promoters of the conference is completely in favor of the Russian counter revolution and a new manifestation of the system for intervention in Russian affairs.

SENATE COMMITTEE CALLS ON MELLON FOR INFORMATION

**Want Something Definite as to Just How Far
United States Has Been Committed by
Former Administration—Mellon Asks for
More Time to Make Further Investigation**

(By The Associated Press)
WASHINGTON, July 21.—The administration's refunding bill was held up today by a call from the senate finance committee upon Secretary Mellon for additional and more definite information as to past commitments with respect to the nation's foreign loans. The tariff bill will reach the committee tomorrow and require prompt attention so it appeared uncertain tonight when further action can be taken upon the refunding measure.

Secretary Mellon was requested by the committee to examine thoroughly all records of negotiations and agreements made by the Wilson administration regarding both the principal and interest payments upon all loans made allied governments and advise the committee at the earliest opportunity of the extent to which such negotiations and agreements commit this government and deprive the treasury of freedom of action in future transactions.

Secretary Mellon when he appeared before the finance committee today was bombarded by a rapid fire of questions aimed by Democratic members to develop to what extent he considered himself bound by the negotiations conducted by the Wilson administration. He stated that so far as funding negotiations conducted by Former Assistant Secretary of the Treasury Rathbone for this government and Mr. Brackett for the British government were concerned there had been no commitment of this government. He stated that it might be embarrassing should this government attempt to revise the arrangement of deferment until April, 1922, of payments on accrued interest inasmuch as the agreement had been observed by the American government for two years.

Needs More Time
Mr. Mellon said he could not at this time advise the committee whether there had been other negotiations which would restrict him in his negotiations. Until he had an opportunity to fully inform himself on all essential details of former negotiations the treasury secretary said he could not outline to the committee definite plans or policies but would attempt to collect all principal and interest now owed the United States, "taking care of all rights we have."

Replying to a further inquiry from Senator Simmons as to policy with reference to the substitution of security and postponement of interest payments, Secretary Mellon stated he had "no expectation of accepting German bonds" and would expect to collect "all interest legally due the United States." Should congress prefer a commission or other agency, he would interpose no objection, Mr. Mellon stated, adding "you cannot make a good piece of work out of it without having authority and you cannot do it by legislative negotiations."

No particular branch of charity is to benefit by the gifts of the corporation, it was stated, but the merits of each one applying for aid will be passed upon by the board of directors.

PROPOSALS ARE NOW IN HANDS OF EAMONN DEVALERA

**Will Present Them to
Colleagues and
Make Report**

(By The Associated Press)
LONDON, July 21.—The proposals of the British government which it is hoped may form a basis of an Irish settlement are in the hands of Eamonn DeValera the Irish Republican Leader. Mr. DeValera will return to Dublin and submit them to the other leaders of opinion in South Ireland, including the members of the Dail Eireann the Irish Republic parliament.

The British prime minister and Mr. DeValera went over the ground again today but as Sir James Craig, the Ulster premier had returned to Belfast and there was no possibility for the present of a conference between representatives of the three parties concerned, it was hardly expected that any definite decision would be taken by Mr. Lloyd George and Mr. DeValera today. A joint official communique issued shortly after the conference declared that "the basis for a further conference has not yet been found."

At the same time it was announced that Mr. DeValera on his return to Ireland would communicate with the prime minister after further discussion with his colleagues.

In the lobbies of parliament tonight the feeling remained hopeful and there was a general impression that an autumn session could not be avoided, the impression being based on the belief that it would prove necessary in order to introduce new Irish legislation.

On the eve of returning to Ireland, Mr. DeValera requested the press to acknowledge his great appreciation of courtesy and kindness with which he himself and his colleagues had been received and treated during their stay in London, not only by the members of the government, but by the general public.

England's hope that the U. S. will prove a lenient creditor are diminishing. Uncle Sam should look after home interests first.

Chicago aldermen could not increase their own salaries, so they voted themselves a fifteen hundred dollar secretary, placing members of their families in these newly created positions. Chicago aldermen are in a class by themselves.

The Cleveland jury has set a precedent. Convictions of women for murder have been few, especially so when the woman

has, with tears, pleaded the old story—the husband unattainable, the soul-mate third angle in the eternal triangle, the subsequent wrath of the husband and the death of the husband.

THE WABASH
Ford isn't going to buy the Wabash.

This rumor which became so wide-spread on the Wabash system is now officially denied. A message from W. H. Williams, chairman of the Wabash board of directors at New York City, denies all of the rumor. Mr. Williams states that no part of the road had been sold and furthermore no part of it would be sold unless all of it should be sold and still further, he said no negotiations whatever had been carried on with Ford relative to such a deal.

DIPLOMATIC RELATIONS
Objection to the recently made proposal that diplomatic relations be instituted between the Holy See and the United States is made by Maurice Francis Egan, former United States Minister to Denmark in an article entitled "The U. S. and the Vatican" in the first number of Columbia, a new monthly magazine published officially by the Knights of Columbus.

"At the beginning of the present administration," Dr. Egan writes, "the usual attempt to induce the president to reopen the question of diplomatic relations with Rome was made. It is a curious fact that there is always a small number of politicians engaged in supporting this recurrent movement, no doubt with the best intentions. Candidates have been mentioned for the office. But the fact that England and France maintain official relations with the Vatican is no example for us to follow."

"The Apostolic delegate in the United States fulfills every rational motive for the closer binding of the spiritual and ecclesiastical affairs of America with the head of the Church." The article, which is given a prominent place in the K. of C. magazine, attributes to social ambitions the movement to have the government institute a permanent mission to the Vatican. Dr. Egan adds that the only time such a mission was necessary was during the Philippine negotiations, which President Roosevelt carried through successfully without it.

KIWANIS CLUB
MET THURSDAY
Regular Meeting Held at Peacock Inn—Several Speakers Heard.

The Kiwanis club held its regular meeting and luncheon at the Peacock Inn Thursday noon. Charles H. Story was the presiding officer. During the business part of the meeting, several new sections to the constitution were read and adopted.

The list of speakers included Harry Garner Story, four-year-old son of C. H. Story, George B. Kendall, Morgan county farm adviser, L. F. Berger of Meredosia, C. S. Smith, E. L. Barbour of St. Louis, who is here to manage the Wild West cowboy roundup for the Chamber of Commerce, and John Larson.

Mr. Barbour, in his address, told some interesting things about the wild west exhibition which is to be staged here next month by cowboys who will come from the Chicago rodeo.

C. OF C. DIRECTORS
MET THURSDAY NIGHT
Several Matters are Given Attention—Mayor Crabtree Reported on the Telephone Rate Hearing in Springfield.

The board of directors of the Jacksonville Chamber of Commerce held a very interesting meeting at the headquarters of the organization, Thursday night. First Vice President Merrigan occupied the chair in the absence of President R. Y. Rowe.

Reports were received from the Round-Up committee, the committee on the Waverly automobile tour, the Ocean to Ocean highway committee and the committee on the new slogan for the city.

Mayor Crabtree was present and reported on the results of the commerce commission on the increased rate for Illinois Telephone hearing that was attended by a joint committee from the city council and the Chamber of Commerce. The mayor's report showed that after some discussion on the part of the local committees their request for a postponement of the hearing was granted until September 22nd, at which time sufficient data will be available to plead the peoples' side of the case.

The question of extension of the cluster light system to take in part of East State street and Church street from State to the Wabash depot was referred until the next meeting for action by the president.

The appointment of county chairman, county committeemen and two state delegates for the Morgan County Ocean to Ocean Highway Association was referred to the committee on committees for action.

The secretary was empowered to issue a monthly bulletin if the cost was not too high.

Many good suggestions were presented for consideration by those present, among them being the elimination of check forgers, more publicity signs on the roads into Jacksonville, better equipment for the office and other matters.

The directors expressed a strong sentiment in favor of the trip to Waverly and appropriated the sum of fifty dollars to be used by the committee in staging the affair.

Sheltered Daughters

The girl who is not introduced to the world by her parents will slip away and scrape an acquaintance. The ignorant girl is not necessarily the safe girl. The near-tragedy of a girl who grew up ignorant of all evil in the world, unwarned, unprepared. Ignorance does not spell safety. Forewarned is forearmed. Parents, don't betray your trust by letting your daughters grow up ignorant of what the world holds for them. Her Dad had shielded her so completely that she didn't know there was anybody in the world who wasn't kind and good as he was. Of course, disillusionment awaited her. Her Dad thought she must be shielded from all knowledge of evil. Yet evil approached that sheltered daughter and all but lured her from her safe nest. She wasn't ever to know that there was evil in the world, decided her Dad. But evil sought her out even in the shelter of her home. How can the little bird escape the cat when it first leaves the nest unless the parent bird has warned it about the cat? She lived in a world of happy dreams, and they thought she was safe, because sheltered. But she had dreamed of romance, and her groping to find romance in life led her close to danger. Her environment was narrow—so was her escape. Clothes may not make the man, but they do an awful lot for a woman. Jennie discovered, when she laid off her own things and became a manikin. Jennie saw a new kind of life when she took off her solemn, school-girl spectacles and got out into the world.

IMPORTANT ASSEMBLY
AT SHURTLEFF COLLEGE
A. A. Curry has returned from attending an important religious gathering, a Baptist assembly at Shurtleff College, near Alton. The purpose of the meeting was for Bible study, Sunday school work and methods and a general religious improvement.

There were various Sunday school conferences and meetings for study of the holy book and all were helpful and uplifting.

A pleasing feature was the presence of 201 young people in addition to many adults. Dr. Peterson, an eminent divine of Chicago, had charge of the Bible study and Dr. Bryant, pastor of the University church at Champaign, had charge of the Sunday school department.

The meeting was such a success there was serious talk of making it an annual event at the college.

The college trustees had a meeting and decided to launch a money campaign about the first of November and it will be in charge of Dr. Myron W. Haynes.

The Rockefeller foundation has promised Shurtleff college \$5000 a year for three years beginning July 1st, 1921.

THOSE INDICTMENTS
The Journal did not support Gov. Len Small in his candidacy for the gubernatorial nomination last year, because, as was stated at that time, of certain political alliances, and not for the reason that we had any distrust of the man personally. He has been a man of high character. Since his entrance into public life twenty years or more ago, the writer has known him personally, not intimately, but well as far as his public life is concerned—and has has never heard anything detrimental in that time, and even now that a grand jury has indicted him for various offenses, has no reason to change that opinion, and believe it only fair to advise the people to withhold condemnation of Gov. Small and Mr. Sterling until a regular investigation and trial as to their guilt or innocence, by a court of law.

There has just closed a bitter political contest and the atmosphere is so befogged by factional controversies that it is extremely difficult to make an accurate estimate of what figure "practical" politics has played in the whole affair.

Gov. Small vetoed certain appropriations made by the legislature for the attorney general's office, at the same time making certain severe criticisms of the conduct of the attorney general's office, and many believe the veto of these items was made in the interest of the taxpayer and the people. The vetoes cut many employees of the

MORGAN COUNTY U. OF I. STUDENTS PLEDGE \$1,400
Urbana, Ill., July 22—Students from Morgan county in the University of Illinois pledged \$1,400 to the new Stadium in the recent campaign on the campus, according to definite statistics just compiled by W. Elmer Ekblaw, director of organization work.

This total places the county among the leaders in the comparative ratings for the students pledged something more than \$100 apiece; the honor individual maximum subscription of the drive.

The minimum student subscription was \$50, and the honor pledge, \$100. For the alumni and former students the executive committee announces that the minimum will be \$100, and the honor individual quota, \$200. But classes of pledges are payable over a period of several years.

Plans indicate that the nationwide campaign will start on October 23, the day of the Michigan football game on Illinois field. It will continue one week.

LEAVES \$100 FOR WOMAN'S BUILDING
A woman who was a student at the Jacksonville Female academy some time during the fifties, who died recently, left one hundred dollars to be applied on the Woman's Building fund of Illinois college.

The college greatly appreciates this interest shown by one of the old academy girls. On account of the college endowment campaign, no large progress has been made with this fund during recent years. The fund for the woman's building, however, has been steadily increasing, and it will not be many years until the structure will be made possible.

Work has been progressing rapidly in the remodeling and repairing of Sturtevant hall. The basement and first floor are expected to be ready for use by the time college opens in September.

President Rammelkamp left Friday morning on a vacation trip to northern Michigan, where his family have been for several weeks.

THE RINGS WERE FOUND
Yesterday morning it was noted that two valuable rings had been taken from the dry goods store of the C. C. Phelps Company and at first it was suspected. The rings had been laid down by the owner while she washed her hands and she went away forgetting to take them again. Fortunately they were picked up by an honest person who reported them to one of the employees of the store who forgot to mention the fact to Mr. Phelps or Miss Hicks and the inference was that they were stolen but they were returned yesterday.

AIRPLANES SINK CAPITAL SHIP IN TRIALS THURSDAY

(Continued from Page 1)

one ton bombs were ordered out.

Only One Bomb Strikes

Only one of the seven one ton bombs dropped by the airmen who were in six Martin bombers and one Handley-Page, struck the Ostfreiland. The first one launched was far off the mark landing in the water about one hundred yards off the starboard bow. The second bomb also was short and it was perfectly evident that the bombers were seeking not to hit the ship, but to drop their projectiles alongside as that proved effective in sinking the cruiser Frankfurt.

The third bomb fell sixty yards away almost directly off the bow, and the fourth one hit on the bow, exploding with great force. The fourth missile landed within a few yards of the port quarter just forward of the aft turret. The explosion sent a great column of water across her deck. The fifth bomb probably did the greatest damage of any. It struck close alongside near the stern and rocked the ship badly besides sweeping the quarter deck clean of some gun mounds and torpedo tubes piled on it.

Another bomb followed striking the water off the starboard quarter and it, too, showered the decks. The Ostfreiland already had begun to settle, but the Handley-Page in the air fleet still carried a ton of explosives which it dropped as a farewell salute just after the big battleship disappeared from view. The bombers circled around while the ship was sinking and then started on the return trip to Langley Field, where they arrived safely.

General Mitchell, who has personally directed work of the army bombers in the tests, circled around the sinking ship and was given a cheer by the guests on the Henderson when he passed that vessel after he had headed his Z-5 pursuit plane for Langley Field. General Menoher sent him the following radio message: "Congratulations to you and entire aircraft brigade on your brilliant performance today."

MEREDOSIA MAN IS KILLED THURSDAY

Ferdinand Kupfer is Run Down by Heavy Oil Truck—Coroner Rose Held Inquest.

Meredosia, July 21.—Ferdinand Kupfer of Meredosia, aged eighty-five years, met almost instant death about 6 o'clock Thursday morning when he was run over by a heavy oil truck. The truck was driven by Henry Hobbs of Chapin, who is employed by Charles Thomason of that place to haul oils and gas.

Hobbs had driven into town from the north, and was backing into an alley at the rear of Fee & Mayes store to deliver oil. On account of the tall weeds he failed to see Mr. Kupfer who was in a stooping position, cutting grass for his chickens. The left hind wheel of the truck passed over the man's chest, crushing it badly.

The driver, upon hearing a cry, immediately stopped the truck and, with the aid of George Mayes and Dr. F. A. Neville, carried the dying man to Dr. Neville's office. Mr. Kupfer's heart was beating only faintly when he was picked up, and he drew not more than three or four breaths after being carried to the physician's office.

Mr. Hobbs has been employed by Mr. Thomason since January, 1920. He was considered a careful driver, and had never had an accident before.

Coroner Charles A. Rose, upon notification from Meredosia, went to the scene of the accident, and held an inquest at 1:30 o'clock the Shaeffer undertaking parlors. The jury gave a verdict of accidental death, and did not attach any blame to the driver of the truck. The jurors were J. D. McLair, foreman; Edward H. Shaeffer, Frank Pond, James F. Mayes, William T. Aldridge, and Oscar W. Wilcox, clerk.

Mr. Kupfer was born in Germany, February 3, 1836. For the past twelve years he had made his home with his daughter, Mrs. Minnie Reutz.

He is survived by four children: Otto Kupfer of Beardstown, Albert Kupfer of Beardstown, Reinie Kupfer of Missouri, and Mrs. Minnie Reutz of Meredosia.

THIS IS REAL CHICKEN STORY

Is Told by John Lazenby and We Have Never Doubted His Veracity Before—Anyway Judge for Yourself.

John W. Lazenby from west of the city gave a Journal reporter a prize story yesterday.

According to Mr. Lazenby, "Pink" Hudson from Arenzville, moved his threshing outfit to the farm of Al Leach west of the city to start work on a large field of wheat. Hudson set his machinery in order and decided to try it out to be sure it was working. The separator was started off and in a few minutes the threshing gang was surprised to see an old hen come flopping out of the blower pipe. Biddy flew thru the air and when she struck the ground she was on a dead run headed for a hedge fence. Several of the men tried to catch her but she was too fleet of foot.

Hudson finished his tryout and pronounced the machine ready for business.

The next morning the men returned to the job to start their threshing operations. The separator was started and after a few revolutions out comes the old hen again. This time she brought a nest of eggs with her. The old hen certainly proved to be a sticker and when last seen she was headed for Arenzville and will probably await the return of the separator to begin operations all over again. She should be allowed to finish the job.

The little child of Mr. and Mrs. J. A. Long is reported improving. Mrs. Ida Kiner is quite ill at her home on East College street.

WOULD SHUT DOWN GAS WORKS

"My stomach has been so filled with gas for the last three years that I felt I could pretty nearly supply our town. I also had frequent pains in right side in region of the appendix. Doctors didn't help much. One day my neighbor told me about what Mayr's Wonderful Remedy had done for him and I got a bottle of our druggist. I can say that it will do all and more than you claim for it." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Adv.

PASSAVANT TRUSTEES IN QUARTERLY SESSION

Good Attendance at Meeting Held Thursday Evening—Many Matters are Given Attention.

The regular quarterly meeting of the trustees of Passavant hospital was held last evening with a fine representation present and a spirit of unusual optimism prevailed.

H. J. Rogers, special committee on general repairs reported progress on the new laundry building and work in other departments. All has been well done and it is expected that the new laundry will be in operation in due season.

Miss Vanner reported an unusual number of new patients for this time of the year. Within the past few weeks the strength of the force has been taxed to the

limit, caring for the new patients entering the institution.

It was decided to have hung portraits of Mrs. Eliza Ayers and S. W. Nichols, placed in conspicuous places. Mrs. Ayers in honor of her original gift of the property and of S. W. Nichols in appreciation of his gift of the nurses' home and long continued services in addition.

C. A. Rowe was anxious that the trustees should become better acquainted with the institution and its work and Miss Vanner was requested to invite them in small numbers at a time to visit the hospital and see its working and equipment.

Remarks were also made by Rev. A. E. Powell of Woodson, Samuel Darley of Pisgah and others.

C. A. Rowe was made chairman of a committee to be chosen by himself to do missionary work among the churches of the county urging all to name trustees who would take an interest in the hospital and aid in its work.

President A. A. Curry spoke in great appreciation of the interest manifested by all present and especially emphasized the fact that the hospital belongs to the churches of the entire county and it was greatly desired that all have trustees on the board and take an active interest in the hospital.

Dr. Hardesty, on behalf of the medical board, made his report, which was good. He outlined the general work done by the staff and made some suggestions regarding the training school.

Dr. Hardesty, Miss Vanner and H. J. Rogers were made a committee to consider better facilities for entering the hospital and reception of visitors, patrons and patients.

If you will judge the Samson Tractor by the value of its utility you will quickly appreciate why so many farmers in this locality have purchased them. The SAMSON MODEL M is more than just a power plant for plowing or silo filling. It can be utilized nearly every month of the year. It will save you money in nearly every operation of your farm work.

In the spring, the SAMSON is the ideal machine for seed bed preparation. It pulls a two- or three-bottom plow, a tandem disc-harrow, two twenty-foot spike-tooth harrows, two four-horse grain drills. In summer the SAMSON makes easy work of threshing. In fall, harvesting and be ready to do an early job of fall plowing. In winter weather the SAMSON is right on the job for wood sawing and other heavy duty winter belt jobs.

Come in and see the SAMSON! We have a limited number on our floor right now and invite your inspection.

PLANS PROGRESSING FOR ANNUAL CONCLAVE

and Recorder Darrah Busy With Arrangements for Conclave Which Will Be Held at Camp Grant, August 16, 17 and 18.

Bloomington, July 21.—Dellar D. Darrah of Bloomington, who is the grand recorder of the annual convocation of the Knights Templar of Illinois, is busy with arrangements for the annual convocation which is to be held at Rockford, with Templar camp at Camp Grant adjacent to that city, August 16, 17 and 18. The convocation is year by year becoming more of a feature and it is expected that in the neighborhood of five thousand knights will be in attendance.

It was necessary to gain the consent of the government to secure the use of the camp for a big convocation. It was the intention of the government to use the buildings and abandon the camp during the early part of August, but through the good offices of the army officials the buildings will be allowed to stand after the templar event.

Many of the most prominent templars in the United States have already signified their intention of being in attendance. President Harding is planning to make a tour of the military camps during the month of August. It is probable that the templars may have the privilege of greeting him during their stay at Camp Grant.

Exhibition and competitive drills by commanderies and battalions will be one of the leading features of the event. There will also be a contest of the

twelve Knight Templar bands of the state for first honors. This will be held at Rockford. An exciting game of polo between rival army teams will also be one of the attractions.

"POP" SHARPE IS 77 YEARS YOUNG

Well Known Citizen Observed Birthday Thursday—Dinner Given at Home.

Fred L., known to his countless friends as "Pop" Sharpe was 77 years young Thursday. We say that because as the years pass Mr. Sharpe seems to lose none of his vigor and he is apparently as young in heart and spirit as when he was twenty-five.

In honor of the event a family dinner was given at his home, 1415 West College avenue. Only the immediate family were present and the event proved one of much pleasure.

Mr. Sharpe was born in Pike county and came to Jacksonville over fifty years ago and this has since been his home. He has been identified with Jacksonville Lodge of Elks since its organization and has been one of the most enthusiastic workers. For many years he has been a trustee of the lodge and is one of the most popular and loved members. May you live to be 177 is the earnest wish of your many friends, "Pop."

HEARING CONTINUED IN TELEPHONE CASE

Full Board Sat in Hearing of Local Rate Case—Matter Is Then Postponed Until September 22.

With a full board sitting in the hearing of the Illinois Bell Telephone company for an increase of rates at Springfield yesterday, the Illinois Commerce Commission entered an order postponing the hearing until September 22. Frank L. Smith presided at the hearing and all members of the commission were present. The city of Jacksonville was represented by Mayor Crabtree and Alderman Chapin, Cain and Ehnie. The citizens' committee was composed of Frank J. Heintz, Hugh Breeden and E. M. Henderson.

Judge William E. Thomson represented South Jacksonville, Woodson and Murrayville. Mayor Alexander represented Roodhouse and City Attorney Wright of Carrollton represented that city.

The telephone company was represented by Former Senator O. F. Berry, of Carthage and Attorney Boynton of Springfield.

The company presented its case and then Chairman Smith asked for remarks from objectors. Mayor Crabtree speaking for Jacksonville said the city attorney was on his vacation. The mayor told the commission that there was no desire to prevent the company from making a fair return on its investment.

However, he pointed out that it did not seem to be the proper time to ask for an increase in rates. Everything is now on a downward trend, the mayor said and it would seem that things might adjust themselves before many months to normal conditions.

Judge Thomson in presenting the case for South Jacksonville, Murrayville and Woodson also emphasized the things brought out by Mayor Crabtree. Judge Thomson proved of great help to the other objectors there by his work in cross questioning.

The attorneys for the telephone company asked permission to present its inventories and other facts and figures at this time merely to get them into the record and save time at future hearings. This the objectors readily acquiesced in with the understanding that no action would be taken by the commission until the objectors had ample time to investigate the figures and prepare an answer.

This required about four hours of time and each objector will be furnished with a transcript of the record. The Commission then set the date for again taking up the hearing to September 22.

The Price Question

—Price and quality are so linked together that they cannot be cut apart. Good merchants always give quality and try to keep the price down. It's the poorest sales argument in the world merely to advertise merchandise as "cheap."

—We invite every thoughtful man and woman in this section, who wants something in the Jewelry or Cut Glass Lines, to come here and see and examine the articles we sell. That's the only fair way to trade.

—We sell only Quality Goods, and sell always at very fair prices.

WILL MARK GRAVE OF REVOLUTIONARY HERO

White Hall, July 20.—There is a growing interest in the work of recording and making the graves of soldiers in northern Greene county, and a valuable line of history is being accumulated. The number of Revolutionary graves in this vicinity so far as known exceeds any other community this far west. This week there will be erected in the Doyel cemetery at Barrow a military headstone over the grave of John Thompson, grand father of A. A. Thompson of White Hall and great grand father of Justice Floyd E. Thompson of Springfield. Every such grave and the grave of every soldier for that matter is entitled to this distinction, and that is what the joint efforts of White Hall and Roodhouse are bringing about. John Thompson was born in Botetourt county, Virginia. He enlisted for three months in 1781 under Capt. Henry Pawling, Col. William McClenahan. He again served for five months and again for one month in 1781 under Capt. David May, Col. Thomas Fleming, in the Virginia troops. He came to Greene county, Ill., where he died March 27, 1843. The marking is to be without any special significance to which the occasion is entitled.

MAIN LICK WINS FEATURE RACE

Finished Last in First Heat but Came Back and Took the Second and in the Overtime Start He Led Most of the Way.
KALAMAZOO, Mich., July 21.—Main Lick, the Southern gelding driven by John Thomas, surprised the talent today by winning the Columbia Hotel purse, the feature event of the afternoon's Grand Circuit racing, finishing ahead of Peter Daw and Voltage, in the overtime heat and forcing Jeanette Rankin to accept fourth money. Main Lick finished last in the first heat but took the next one in a whipping drive down the home stretch. He finished fourth behind Peter Daw in the third heat, getting away to a poor start but in the overtime start he led all the way from the half with the Daw gelding and Voltage finishing in the order named. Main Lick was entirely overlooked in the ring. The 2:13 pace proved easy for Dardanella, which finished ahead in the first and third heats. Julia M. Direct, the favorite was close up all the way and won the second heat but lacked enough speed to head off the fleet Erskine entry. Single G. won the Free For All pace in straight heats. The first mile was turned in 2:00 1-2, the fastest of the meeting. Summaries: 2:14 trot, Columbia Hotel. Purse \$3,000. DEMAND FOR GRAIN CRADLES STILL EXISTS
Morgantown, W. Va.—(By A. P.)—A large demand for grain cradles still exists, it was discovered recently, when George W. Brown, of Grafton, obtained a patent on a knock-down cradle, which is said to be a vast improvement over the old style, still used in the mountains of the state where a reaper is impracticable.

Daily Market Report

WHEAT DEVELOPED

SOME STRENGTH
CHICAGO, July 21.—Wheat de-
veloped some strength today,
largely because of reports that
Germany had obtained credit for
Great Britain to buy breadstuffs.

The market closed firm at the
same as yesterday's finish to 3c
higher, with September \$1.26½
to \$1.28½ and December \$1.29½
to \$1.29½. Corn closed 1c off to ½
@ 3c up and oats gained ½c to 3c.
In provisions the outcome ranged
from 12½c decline to a rise of 2½
cents.

Strength in the wheat market
showed itself almost exclusively
during the final half hour of the
session and after word had been
circulated that British bankers
had made a \$15,000,000 loan to
Germany to be used in the main
for the purchase of wheat. Bull-
ish sentiment was also stimulated
by famine news from Russia and
by advices that the western Cana-
dian crop this season would not
be larger than that of last year.

Until the bulge in prices at the
last, however, bears had things
much their own way with gossip
current that consignments from
growers in the southwest appear-
ed to be limited only by inability
to get cars. A good deal was
made, too, of predictions that re-
ceipts would continue liberal and
of the need of track deliveries
here owing to congested storage
facilities, and the elevator em-
ployees' strike.

Excellent crop prospects tended
to ease the corn market. Oats
were relatively firm as a result of
disappointing yields. Higher quo-
tations on hogs partly counter-
balanced in the provision market
the depressing effect of a break
inlard prices at Liverpool.

FEW TRANSACTIONS

ON STOCK EXCHANGE
NEW YORK, July 21.—The
stock market's only outward re-
cognition today of easier credit
conditions announced over night
was a decline in call money quo-
tations from 6½ per cent. Other-
wise further lowering of discounts
by federal reserve banks and the
cut in the Bank of England rate
did not affect trading.

Total transaction of 185,000
shares established a low record
for the year. The trend of prices
was downward.

Exchange on London weakened
on selling precipitated by devel-
opments in the Silesian situation.
Later partial recovery was effec-
ed with improvement in French,
Belgian and German rates.

With few exceptions the bond
market was firm to strong. Liber-
ty issues were appreciably better,
most rails tended upward and the
feature of the foreign group was
the strength of various munici-
pals, notably Danish and Swedish
issues. Total sales (par value)
\$10,875,000.

"CHIEF"

The wonder horse whose daring jumps and leaps have astounded the equestrian world. He is shown here clearing an automobile with ease.

JUMPING HORSE
AN ATTRACTION
OF ROUND UP

"Chief" to Furnish Part of Thrills of Big Wild West Cowboy Roundup to Be in Jacksonville Aug. 4th, 5th and 6th.

Plans for the big Wild West Cowboy Roundup continued to progress with speed today. Yesterday afternoon the grounds committee held a meeting and definitely decided that the big show would be held on the Stout lot, on Independence avenue, the site of the John Robinson circus a few weeks ago.

This decision will enable other

committees to proceed with definite plans and the arena people will get busy soon erecting the arena and placing stands, seats, etc. There is much work for the committee in charge of this phase of the work, but with the co-operation which has been exhibited so far the task will be successfully accomplished.

One of the feature attractions to be presented here in connection with the Wild West Cowboy Roundup here Aug. 4th, 5th and 6th, will be "Chief," the jumping horse. This wonderful animal will make some great leaps. He will jump over an automobile at each performance of the show. Most animals who perform jumping tricks have to be driven to make the jumps, but it is said that "Chief" takes a flying start and clears the automobile while going at top speed.

"Chief" is but one of a number of similar thrillers that will be presented to Jacksonville audiences when the roundup is staged here.

It is the hope of the Chamber of Commerce under whose auspices the show is being staged here that sufficient funds will be netted from the enterprise so that the park board will be enabled to build a bridge for vehicles across the spillway at Lake Mauvaisterre.

Wisconsin School Teacher Can't Find Words to Express Her Gratitude to Tanlac.

"Tanlac has been such a blessing in overcoming all my suffering that I can't find words to fully express my gratitude and appreciation," declared Miss Florence Stocks, a popular school teacher of Lone Rock, Wis., while visiting friends in Freeport, Ill.

"I had been teaching for several years," she continued, "and was right on the verge of a nervous breakdown. I had taken a great deal of medicine trying to keep up my strength, but I could see that my condition was gradually growing worse all the time. I suffered from what was called nervous indigestion, and was in intense pain and distress after every meal. My head ached dreadfully, and many days at school I didn't see how I could hold out until closing time. I had such attacks of dizziness that everything seemed to whirl around before me, and was so miserable that I was melancholy and had almost reached the point of despair."

"I came here to Freeport on a visit and heard so much about what Tanlac was doing for others that I began taking the medicine myself. It certainly proved a glad surprise to me, for I started improving rapidly from the very first, and six bottles have made me feel like an entirely different person. I have a wonderful appetite now, and although I eat just anything I want I never feel a sign of distress. My nerves are in perfect condition and I am enjoying the very best of health. I can never praise Tanlac enough for what it has done for me."

Tanlac is sold in Jacksonville by Shreve's Drug Store and by leading druggists everywhere.—Adv.

Keeping the
House in
Order

IT is in caring for the needs of its patrons, be they big or little, which stamps the Standard Oil Company (Indiana) as a service organization of the first order.

Whether the product be a major one, as for instance, gasoline, or one of the highly refined motor oils, or a secondary one, such as Standard Road Oil, facilities have been provided by which the patron, wherever he may live, may get what he wants with as little delay as possible, and at a minimum of expense.

For many years Standard Road Oil has been used by communities and individuals in providing a semi-hard surface to highways. Roads so treated are dustless, are not so easily affected by rains, and carry a heavier load with less power than is possible where plain dirt roads, however well cared for, are used.

Recently it has been apparent that many want to use this dust preventive on the roads about their homes. Some need but a single barrel; others two or three, but these small amounts they want badly.

As soon as it became apparent that there was a demand for Standard Road Oil in small quantities, the Company assigned to this product a sufficient number of iron barrels to care for the trade. These barrels are not sold but are used merely to transport the oil; to be returned as soon as they can be emptied.

By thus cooperating with its patrons, the Company can furnish small quantities of Standard Road Oil at a minimum price, and the user can get it in quantities of one barrel, or a thousand barrels, without having to pay for the container.

This is but one of the many ways in which the highly specialized organization of the Standard Oil Company (Indiana) serves the public, individually and collectively, to the profit of all.

Lovelier Fabrics
for a
Lovelier Summer

WAS there ever a Summer when you needed so many clothes? Or when fabrics were so tempting—the prints with their trim little patterns, organdies deliciously colored, dotted swisses like mounds of snow, and crêpes, voiles and mulls soft as cobwebs?

Just as you are sighing a bit wistfully, our piece-goods department surprises everybody with sweeping values. Not to be outdone, our pattern counter makes known a wonderful new invention—

The DELTOR

—with every new Butterick Pattern
Saves you 50c to \$10
on material alone

By three simple steps, the Deltor transforms the frock you make into a "creation."

First, it shows you how to lay your pattern in your size, in every suitable width of fabric, so skilfully, so economically that you use 1/4 to 1 1/2 yard less material than you ever used before.

Then it gives you a simple, step-by-step picture guide how to follow in putting on a garment together. So

simple is it to follow that every perplexing problem of putting together is answered, and your garment attains the line and charm that you so often admired in the creations of expensive modistes.

And finally, one of the most important problems is answered. Each detail of finish, each perplexing question of adornment, so simply told to you that you unconsciously obey, and your gown is well entitled to the stamp of "Paris."
